Proposed Site for Aerospace

24-06-2024

Titan Aerospace intends to lease or acquire Kurnool Airport for captive use.

(MRO) Maintenance Repair Overhauling for Aircrafts and Helicopters will be performed here Along with Simulators for civil aircrafts and helicopters.

Proposed Site for Defence Production

Titan Defence is proposing to establish additive manufacturing for aerospace and defence verticals in Donakonda Defence Corridor or Kurnool Defence Cluster in Andhra Pradesh. This includes Aircrafts, Helicopters, Drone, Engines, Combat Vehicles, Body Armor Jackets.

Proposed Site for Defence Production

Titan Defence has a land allotment of 6000 Acres in Tamil Nadu Defence Corridor in Madurai Node. Titan proposes to establish additive manufacturing for aerospace and defence verticals.

This includes Aircrafts, Helicopters, Drone, Engines, Combat Vehicles, Body Armor Jackets.

Virudhunagar District & Ramnad District of Madurai Node

Common Facility Center for Aerospace, Defence, Space

3-D Printed Components & Accessories

A Common Facility Center with Additive Manufacturing Facility for Aerospace Defence & Space Verticals by Using 3-D Printers

Heli Hoping Air Ambulance & Development of Heliports

11

TDSL intends to create Heliports at all District Head Quarters in the State of Andhra Pradesh

TDSL will deploy Helicopters for Highway Patrolling & Air Ambulance

TDSL intends to create Airfield & MRO Facilities at Donokonda Node in AP

Activities in Aviation Vertical

Civil Sims, Air Charters, Aviation University

12

24-06-2026

Full Flight Simulators for Aircrafts & Helicopters, Air Charters with Double Engine & Pressurized Cabins, Skill Development through National Aviation University (Ukraine)

Product Line in Aerospace Vertical

13

24-6-2026

Leasing of Airport, MRO for An 74 Family this Includes An 32, An 74, An 148 An 158, An178. Mi-18, Mi-17 and Mi-171 Helicopters.

Product Line in Aerospace Vertical

14

24-06-2026

Assembly Line to Production Line for Aircrafts, Sea Planes
including in house Testing and Certification Facility

Product Line in Aerospace Vertical

Manufacturing of different variants of Helicopters like Single & Dual Engine with VIP and Passengers Cabin Configuration or Combo of both Passenger & Cargo or Convertible Cabins from VIP to Passenger or vice versa

Product Line in Aerospace Vertical

24-06-2026

Manufacturing & Maintenance of Large Commercial Aero Engines for Aircrafts, Helicopters like Turbo Jet, Turbo Prop and Turbo Propop. In addition to this Engines for Drones, Combat Vehicles and Satellites.

Product Line in Defence Vertical

17

24-06-2022

Body Armor Jackets, Tactical Suits, EOD Bomb Disposal Suits, Riot Suits, Riot & Tactical Suits for Working Dogs

Product Line in Defence Vertical

Drill cartridges

TECHNICAL DATA

Available calibres: 9x19mm, 40 S&W, 45 ACP, 4.6x30mm, 5.66x45mm, 7.62x51mm, 7.62x39mm, 12.7x9mm, 12 shotshell. Other calibres upon customer's request.

Plastic drill cartridges

- Cartridge case made from plastic PE +30NFG with self lubricating additive
- Base of cartridge made from brass or aluminium
- Rubber buffer in base for firing pin protection
- Cartridges provided in orange colour or upon customer's request

Brass and steel drill cartridges

- Cartridge made from Brass
- Cartridge made from Steel

7.62x39mm plastic blank ammunition

TECHNICAL DATA

Designation: 7.62x39 plastic blank ammunition
Calibre: 7.62x39mm
Product number: 500052
Cartridge material: PE HD
Base: 2x410
Primer: brass, larger rifle
Propellant: NC powder
Colour: red
Cartridge weight: ~6.5g
Operational temp. range: -20°C to +50°C

Storage: Temperatures and conditions as for live ammunition. Long term storage: -10°C to +30°C at 40 up to 80% RH. Long term storage conditions to be valid only for ammunition stored in original closed outer packaging. 20 years during long term storage in warehouse.

Shelf life

Hazard code: 1.4L, UN0014

USE

Firing modes: All versions of AK-47 rifles in calibre 7.62x39

Semi-auto and full-auto mode with AREX blank firing attachment. Handling and firing as with live ammunition.

Ballistic and other data: 3-meters front of the muzzle with AREX blank firing attachment.

SAFETY

Marking and packing: In accordance with STANAG 2951 ACP-2 and regulations of ADR, RID, IMDG CODE and IATA DGR. 30 rounds in inner cardboard box. Intermediate packaging: cardboard box, 60 inner boxes, total of 1,800 cartridges. Outer packaging: wooden box, 78 inner boxes, total of 2,340 cartridges. Packing and marking could be done according to customer's requirements.

TECHNICAL DATA

Designation: 9x19 NLA Non-Lethal rubber bullet ammunition
Calibre: 9x19mm
Cartridge case: Plastic PE HD - blue colour
Bullet: Rubber - BS 30A - yellow colour
Bullet weight: 0.63g
Base: 2x410
Primer: SP base, Non-toxic and Non-Corrosive
Weight: ~2.8g
Operational temp. range: -20°C to +50°C
Shelf life: 5 years
Storage: Temperatures and conditions as for live ammunition. 1.4L, UN0012

MAIN CHARACTERISTICS

- The plastic, special rubber material and cartridge construction result in optimum performance from our rubber bullet ammo providing for Non-Lethal effect at optimum distance.
- Blue coloured cartridge case and yellow bullet provides an additional instant visual reference as Non-Lethal ammo avoiding user mistakes by reducing likelihood of mixed Non-Lethal and live ammunition.
- Low noise and weapon recoil.
- Weapon operates with hand cycling for single shot by shot shooting. No automatic or semi-automatic shooting.

USE

Weapons: semi-automatic pistols in calibre 9x19
Firing mode: single shot by shot with hand cycling
Purpose of use: Risk control
Training and target shooting

STANDARD PACKING

30 rounds in plastic tray / inner box, 3,000 rounds in cardboard box
30 rounds in plastic tray / inner box, 3,000 rounds in wooden box
Packing and marking could be done according to customer's requirements.

TECHNICAL DATA

Designation: 7.62x39 NLA Non-Lethal rubber bullet ammunition
Calibre: 7.62x39mm
Cartridge case: Plastic PE HD - blue colour
Bullet: Rubber - BS 30A - yellow colour
Bullet weight: 1.07g
Base: 2x410
Primer: NC powder
Propellant: SP base, Non-toxic and Non-Corrosive
Weight: ~6.4g
Operational temp. range: -20°C to +50°C
Shelf life: 5 years
Storage: Temperatures and conditions as for live ammunition. 1.4L, UN0012

MAIN CHARACTERISTICS

STANDARD PACKING

30 rounds in cardboard box, 2,340 rounds in wooden box
30 rounds in cardboard box, 1,800 rounds in outer cardboard box
Packing and marking could be done according to customer's requirements.

BALLISTIC DATA

USE OF NLA RUBBER BULLETS FOR RISK CONTROL PURPOSE

- Always respect prescribed minimum 20 meters safety distance front of the weapon.
- Always respect recommended shooting area on human body.
- Always aim in lower part of the body for good effect and to avoid injury the person.
- Never aim and shoot at the head or neck!

SAFETY DISTANCE MINIMUM 6 METERS

SHOOTING AREA ON HUMAN BODY

BALLISTIC DATA

SAFETY

Users during the training and force on force shooting must wear approved mandatory protective equipment for head, face and throat protection and protective gloves. Double layers of long clothes and groin protection is recommended.

Minimum safety distance: Recommended safety distance front of muzzle is minimum 1 meter for shooting on protected person. Non-lethal, bullet impact can leave on exposed skin bruises or scrapes. Reduced force bullet ensure protection from backfire live cartridge that will not lead into the chamber.

PACKING

Inner packing: 30 cartridges in inner cardboard box with plastic tray
Intermediate packing: 30 inner packs of total 1,800 cartridges in cardboard box
Outer packing: 30 inner packs of total 1,800 cartridges in wooden box
30 inner packs of total 1,800 cartridges in metal box M053
